SEARCHING THE INTERNET

1	2	3	4
How search works	Initial set up	Main search tools	Advanced search tools

FOUR STEPS TO A BETTER SEARCH EXPERIENCE

HOW SEARCH ENGINES WORK

Google is the most commonly used search engine, so we are going to focus on how to search with Google.

Because there are thousands, (and sometimes millions) of webpages with information related to your search, Google uses algorithms sort through the hundreds of billions of webpages they have indexed to find the most relevant results related to your search terms.

Google then offers you ways to choose the most useful format, such as maps, images, videos, or news websites.

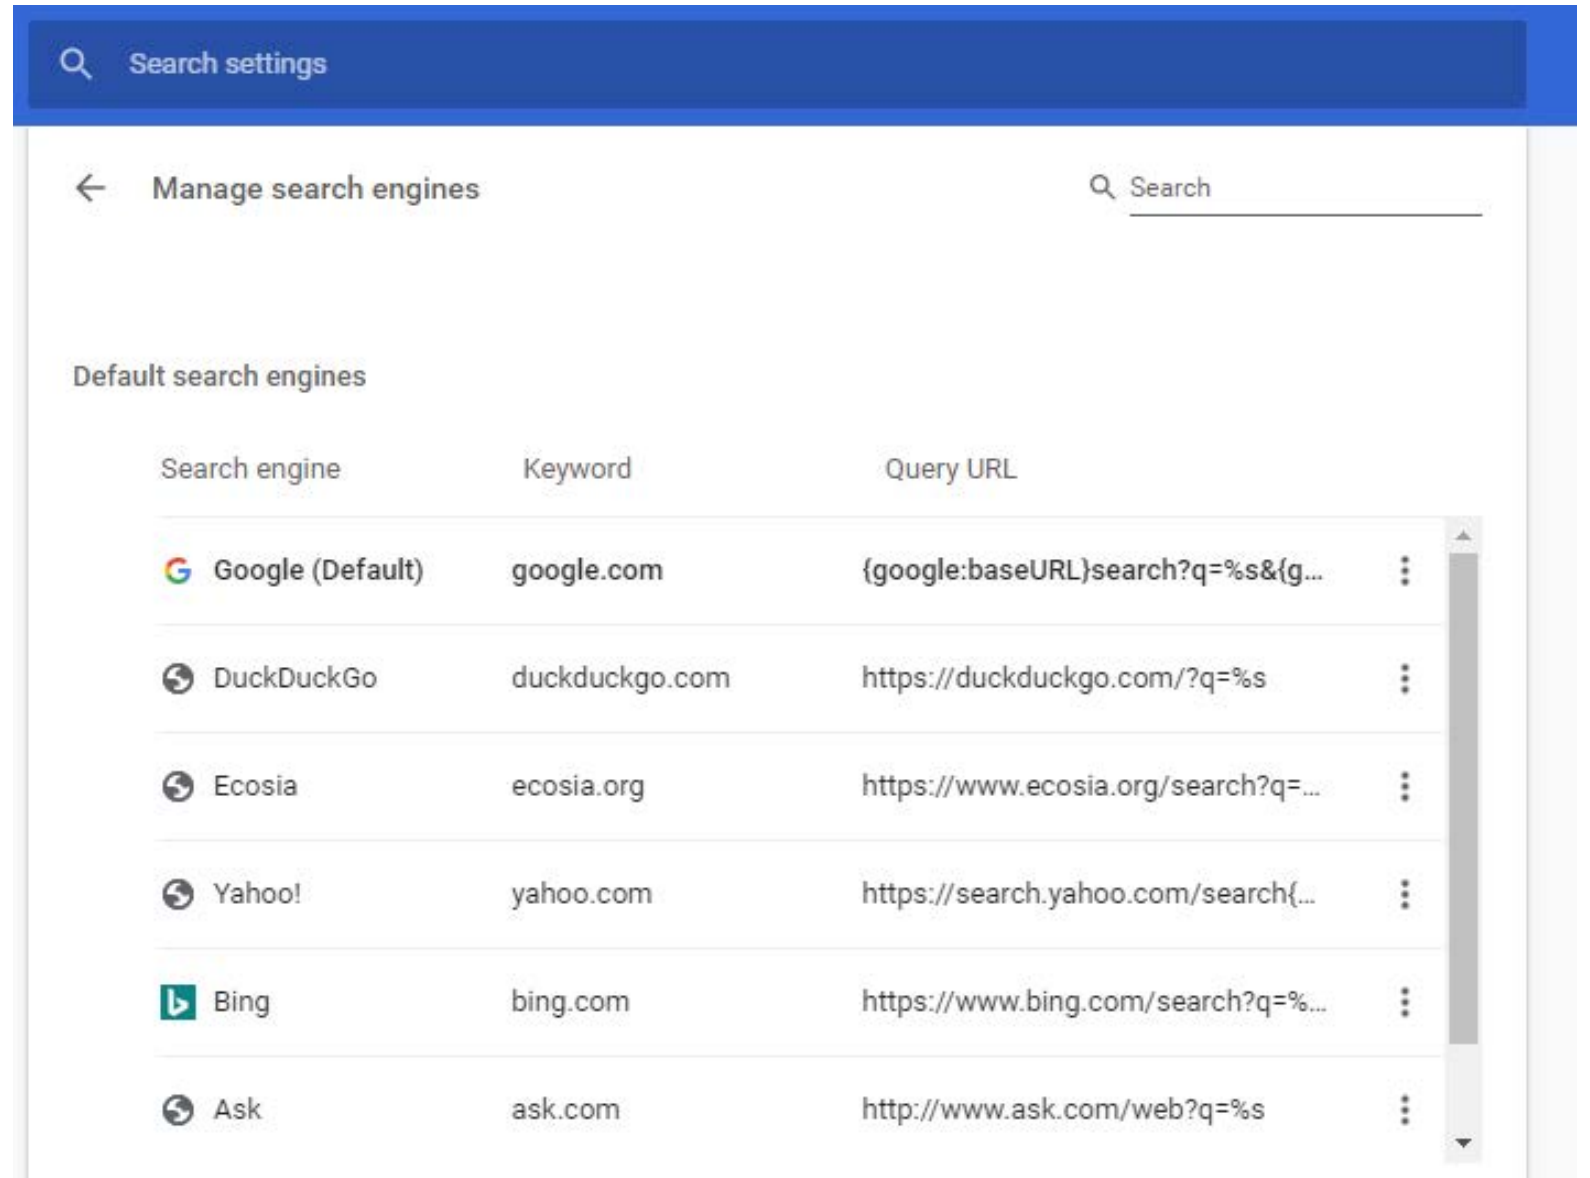

Hundreds of new webpages are published every day, and search engines constantly crawl and recrawl the internet to find and index new content.

INITIAL SET UP

YOU CAN SET UP YOUR BROWSER TO MAKE SEARCHING FOR AND FINDING INFORMATION EASIER

- Choose default settings to make your experience more efficient
 - Chose a default Search Engine to make searches more consistent
 - Customize Fonts/Zoom for better readability
 - Useful Extensions to improve your online experience
 - Adblock will block ads & popups
 - Ally creates closed captioning on any website

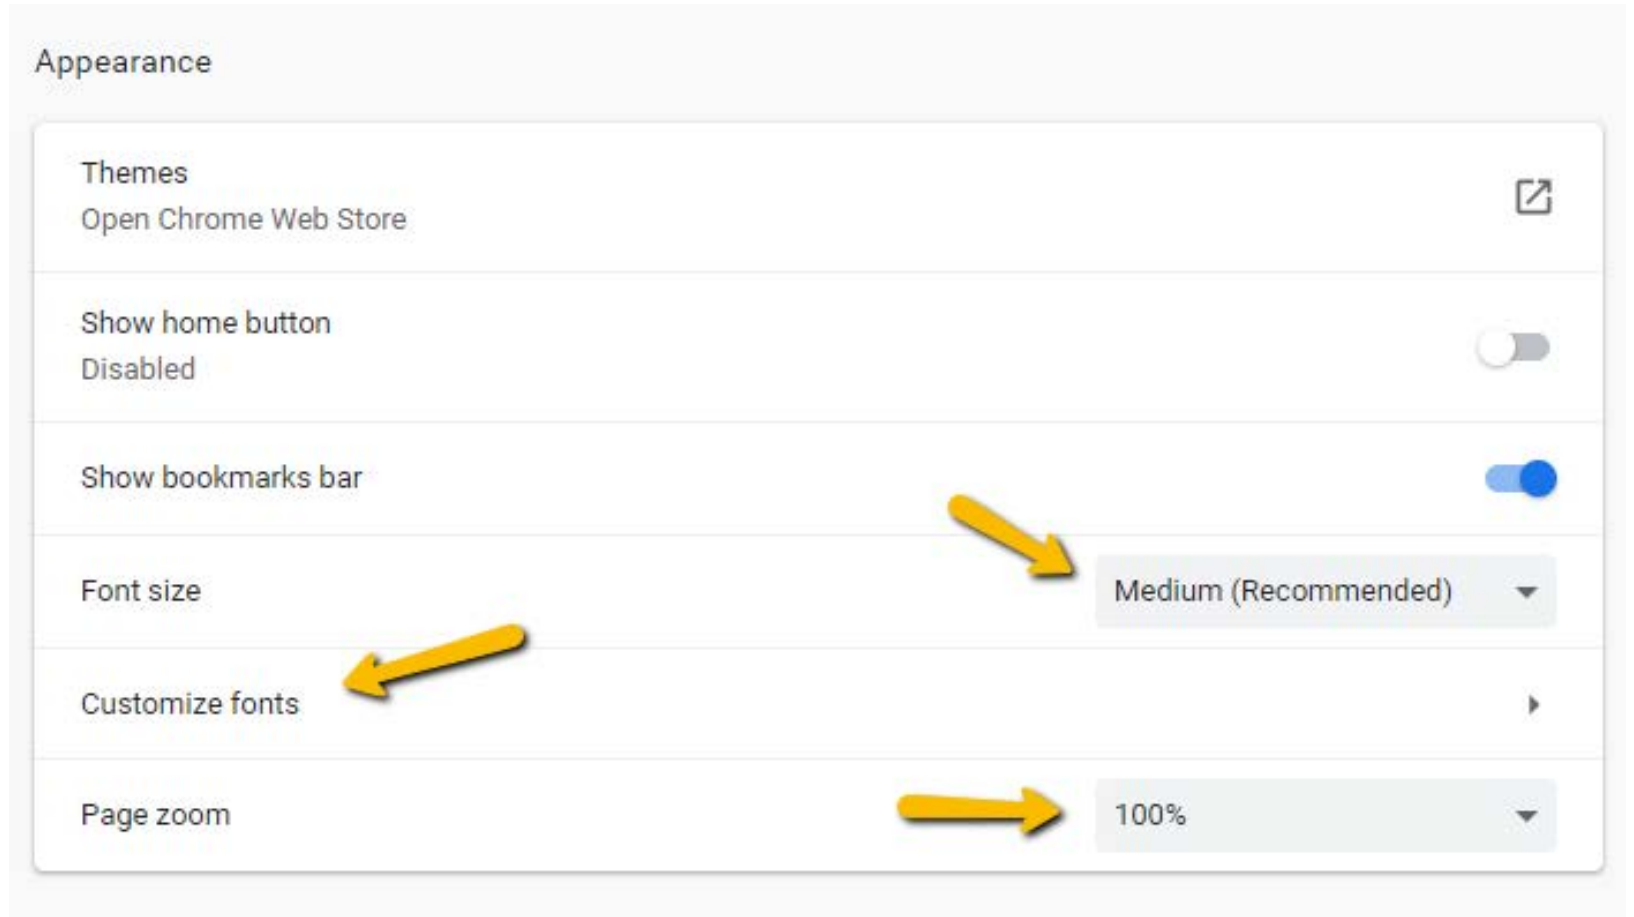

The screenshot shows the 'Search settings' page in a browser. The main heading is 'Manage search engines'. Below it, there is a section for 'Default search engines' which contains a table with columns for 'Search engine', 'Keyword', and 'Query URL'. The table lists several search engines: Google (Default), DuckDuckGo, Ecosia, Yahoo!, Bing, and Ask. Each row includes a small icon of the search engine, its name, the keyword used for the search, and the corresponding query URL. A search bar is visible at the top right of the settings page.

Search engine	Keyword	Query URL
 Google (Default)	google.com	{google:baseURL}search?q=%s&{g...
 DuckDuckGo	duckduckgo.com	https://duckduckgo.com/?q=%s
 Ecosia	ecosia.org	https://www.ecosia.org/search?q=...
 Yahoo!	yahoo.com	https://search.yahoo.com/search{...
 Bing	bing.com	https://www.bing.com/search?q=%...
 Ask	ask.com	http://www.ask.com/web?q=%s

INITIAL SET UP

YOU CAN SET UP YOUR BROWSER TO MAKE SEARCHING FOR AND FINDING INFORMATION EASIER

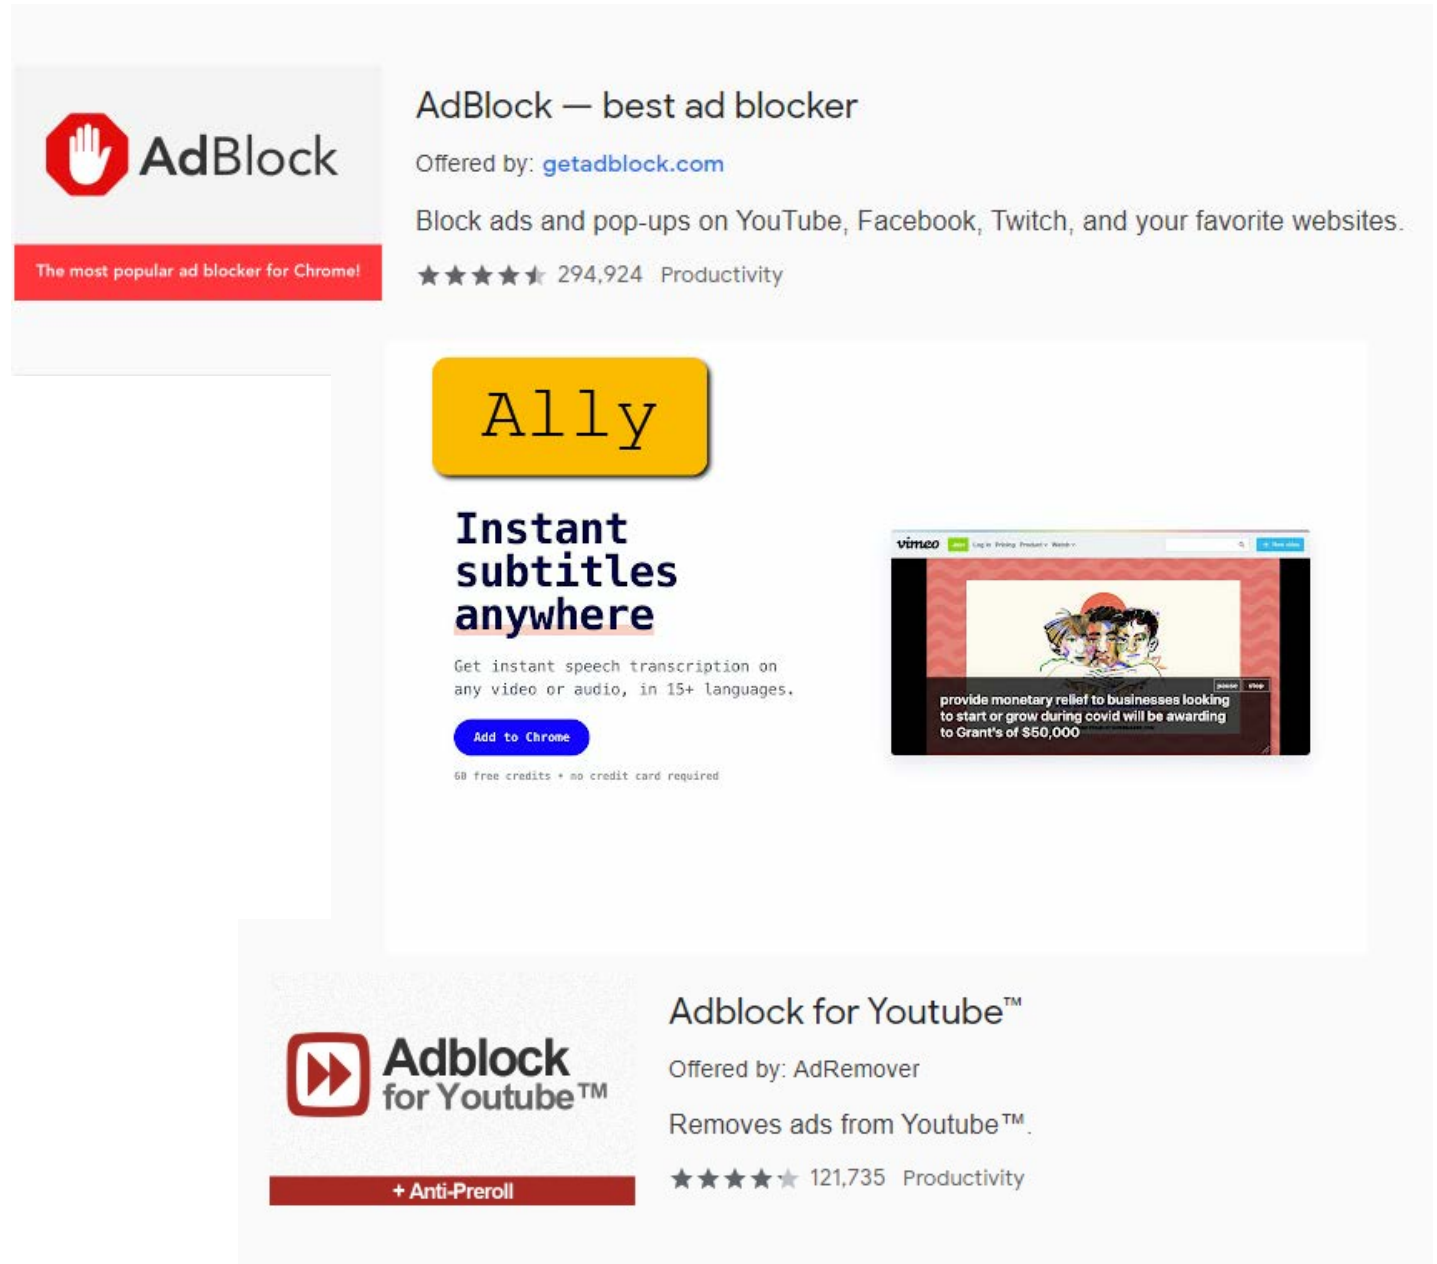

- Choose default settings to make your experience more efficient
 - Chose a default Search Engine to make searches more consistent
 - **Customize Fonts/Zoom for better readability**
 - Useful Extensions to improve your online experience
 - Adblock will block ads & popups
 - Ally creates closed captioning on any website

INITIAL SET UP

YOU CAN SET UP YOUR BROWSER TO MAKE SEARCHING FOR AND FINDING INFORMATION EASIER

- Choose default settings to make your experience more efficient
 - Chose a default Search Engine to make searches more consistent
 - Customize Fonts/Zoom for better readability
 - **Useful Extensions to improve your online experience**
 - **Adblock will block ads & popups**
 - **Ally creates closed captioning on any website**

The screenshot displays two extension cards from the Chrome Web Store. The top card is for 'AdBlock — best ad blocker', offered by 'getadblock.com'. It features the AdBlock logo (a red octagon with a white hand) and a red banner stating 'The most popular ad blocker for Chrome!'. The description says 'Block ads and pop-ups on YouTube, Facebook, Twitch, and your favorite websites.' and shows a 5-star rating with 294,924 reviews in the 'Productivity' category. The bottom card is for 'Ally', which offers 'Instant subtitles anywhere'. It has a yellow header with the word 'Ally' and a blue 'Add to Chrome' button. The description states 'Get instant speech transcription on any video or audio, in 15+ languages.' and mentions '60 free credits + no credit card required'. A small video player preview shows a scene with subtitles.

AdBlock — best ad blocker
Offered by: getadblock.com
Block ads and pop-ups on YouTube, Facebook, Twitch, and your favorite websites.
★★★★★ 294,924 Productivity

Ally
Instant subtitles anywhere
Get instant speech transcription on any video or audio, in 15+ languages.
[Add to Chrome](#)
60 free credits + no credit card required

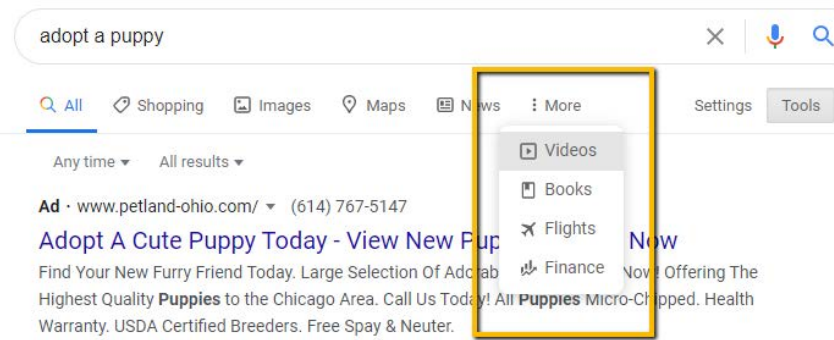

Adblock for Youtube™
Offered by: AdRemover
Removes ads from Youtube™.
★★★★★ 121,735 Productivity
+ Anti-Preroll

Avatars - digital signers

This page explains how digitally created people known as 'avatars' are bringing sign language to the web, digital TV and other applications

Avatars are digitally created characters that turn speech into sign language. They are being developed for a wide range of uses including television sets and setup boxes and to help to make the web more accessible to Deaf, hard of hearing and speech-impaired users.

In collaboration with the BBC the RNID is exploring various means of using avatars for closed signing. Examples are the eSign project to develop signing avatars and SynFace, which lip-speaks any audio-material.

Avatars will also help address the shortage of human interpreters; they are not intended to replace them, but rather to increase the amount of signed content available to sign language users.

eSign project

Operating systems covered

KEEP SEARCHING!

Functionality and accessibility is essential for equality and inclusiveness. Understanding how to use search engines provides the Deaf and hard-of-hearing with the same opportunities for personal and professional advancement that able-bodied people enjoy.

Why POCKET?

Marketers find that users will often “Like” articles without clicking through to read and interact with the content.

Pocket readers are more likely to read and engage with content, making it perfect for libraries and the publishing industry.

Readers can visit your Pocket profile to see your recommendations, and by following can continue to be informed and inspired.

Save to Pocket from Your Computer

Connecting the Pocket button provides the best way to save pages to Pocket in just one click.

[Connect Now](#)

[Or install the bookmarklet >](#)

View From Any Device

Get Pocket for:

[Windows >](#)

[Kobo e-reader >](#)

[Windows Mobile >](#)

Use the Pocket extension, available for Apple, Android, Mac, Windows, and many other devices.

The Save to Pocket browser extension adds an icon to your browser toolbar. Then in one click you can save articles, pictures, and videos, tag for quick future reference, read it at your convenience, and share to your social media channels.

Save and tag articles right from your browser.

STILL TRYING TO FIND ANSWERS OR INFO? ASK A LIBRARIAN!

Reference and Nonfiction Books

Undergraduate Research in Film: a Guide for Students is part of the Routledge Undergraduate Research Series.

This textbook provides research activities and case studies on projects in:

- the study of film & film history
- film theory
- film production

It brings together examples of film projects and film studies courses using exercises to build research skills.

Film and Television: a Guide to the Reference Literature

Film and television are not only viewed as entertainment, but as educational and cultural forms. This book delves into how movies and television shows are produced, the filmmakers, crew, and actors, their content, and their reception by audiences, reviewers, critics, and scholars. It includes general guides, dictionaries and encyclopedias, filmographies, and lists of filmmakers. This is an indispensable guide for librarians, teachers, students, aspiring filmmakers, and fans.

Film and Television Analysis: an Introduction to Methods, Theories, and Approaches

This textbook is an introduction to the study of film and television, including such topics as:

- ideological analysis
- genre theory
- psychoanalysis
- postmodernism
- cultural studies

Also explores approaches to race, gender, and sexuality, and contains information about historical developments, with a glossary of key concepts and terms, and case studies.

E-Books

The Palgrave Handbook of the Philosophy of Film and Motion Pictures

An important collection of authoritative essays on the philosophy of film and motion pictures.

Topics explored include:

- film ontology
- film structure
- psychology
- authorship
- audience reaction
- And contemporary social issues.

The Complete History of American Film Criticism

This ebook chronicles the lives and work of the most influential film critics of the past 100 years, calling attention to directors, cinematographers, producers, screenwriters, and actors.

With mini-biographies of some of the most respected film critics, this history explores the cultural impact of commentary about film as a modern art form.

*Hollywood by Hollywood: the
Backstudio Picture and the Mystique of
Making Movies*

The backstudio or behind-the-scenes movie about the movie industry overlaps Hollywood as a location, a business, and a fantasy world. Hollywood represents an actual town and yet an imaginary place, and backstudio pictures shape perceptions of how the film industry works. Research includes the history of over fifty backstudios, and one hundred years of the history of American movies.

Film & Television Literature Index with Full Text Database Coverage List

"Core" coverage refers to sources which are indexed and abstracted in their entirety (i.e. cover to cover). "Priority" coverage refers to sources with a substantial volume of materials relevant to the field, while "Selective" coverage refers to sources with an occasional volume of material relevant to the field. This title list does not represent all the Selective content found in this database. The Selective content is chosen from thousands of files containing articles that are relevant to this subject. Titles with "Coming Soon" in the Availability column indicate that this publication was recently added to the database and therefore full or no articles are currently available. If the 1 symbol is present, it indicates that 10% or more of the articles from this publication may not contain full text because the publisher is not the rights holder.

Please Note: Publications included on this database are subject to change without notice due to contractual agreements with publishers. Coverage dates shown are the intended dates only and may not yet match those on the product. All coverage is cumulative. Due to third party ownership of full text, EBSCO Information Services is dependent on publisher publication schedules (and in some cases embargo periods) in order to produce full text on its products.

Collaboration & Communication with Trello

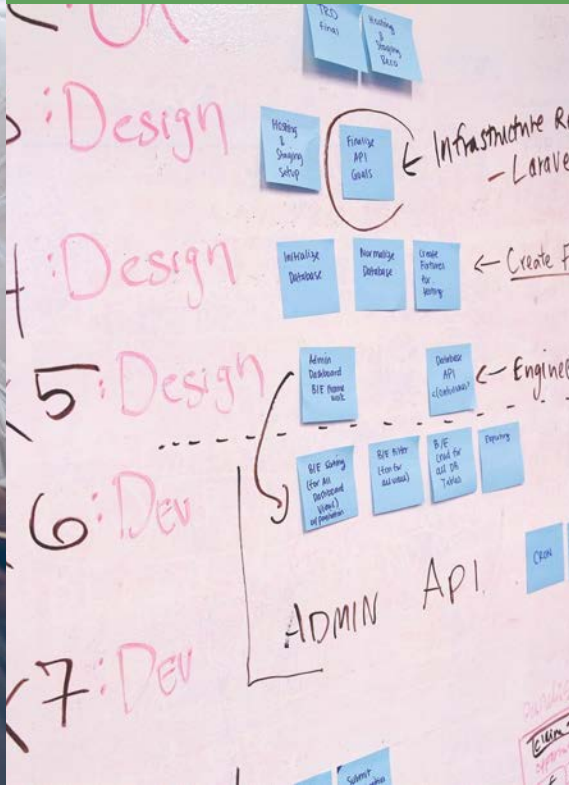

LIS 2237 Susan Raber

Work Together

Stay on track

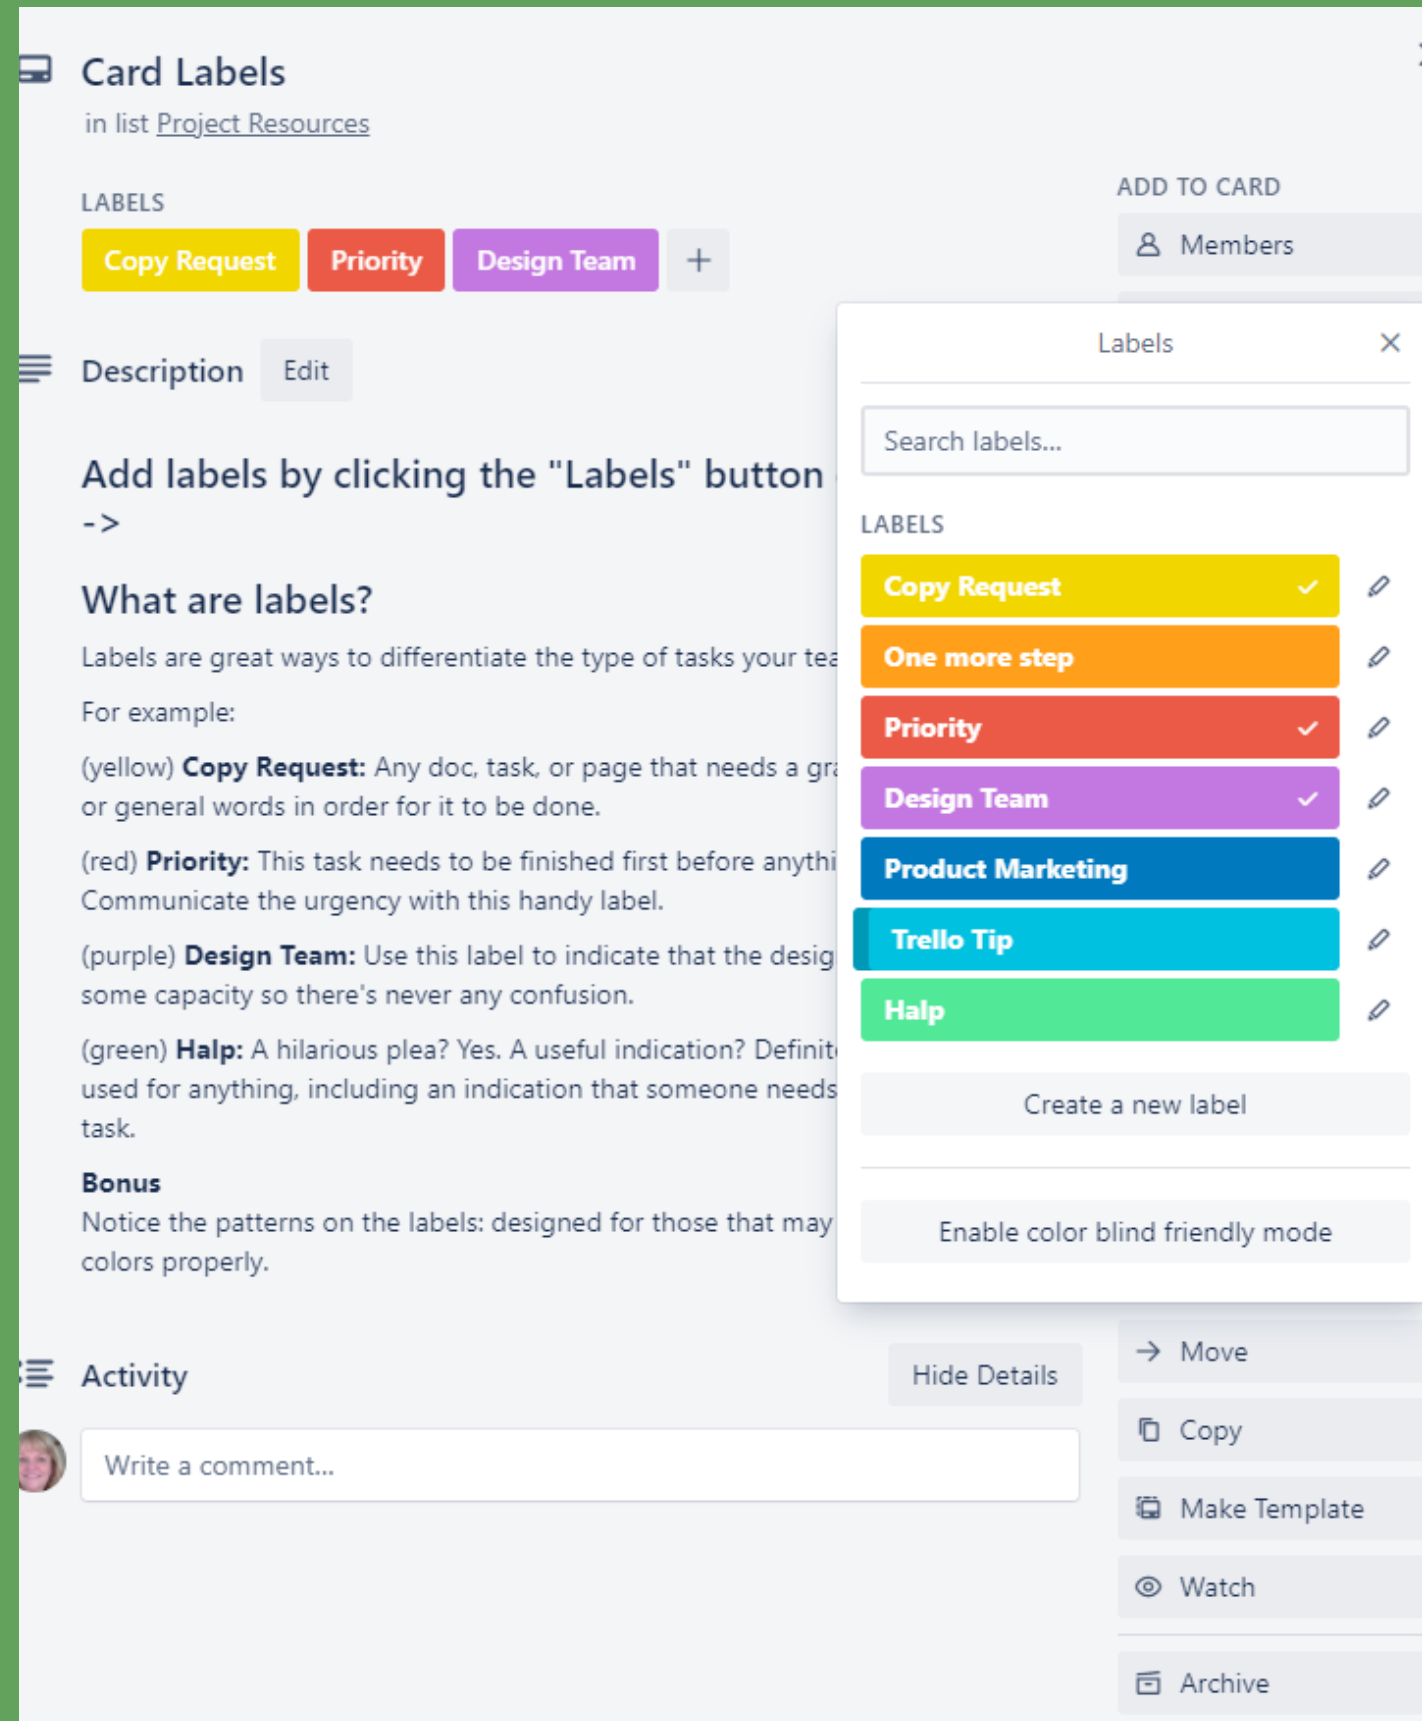

Trello has redesigned these traditional planning tools for the digital age.

Trello allows your team to efficiently and effectively manage your projects, improving communication and collaboration so you can meet your client's needs.

Customizable

The screenshot displays the 'Card Labels' interface in Trello. At the top, it shows 'Card Labels' in the list 'Project Resources'. Below this, there are three labels: 'Copy Request' (yellow), 'Priority' (red), and 'Design Team' (purple), followed by a plus sign. A modal window titled 'Labels' is open, showing a search bar and a list of labels: 'Copy Request' (checked), 'One more step' (orange), 'Priority' (checked), 'Design Team' (checked), 'Product Marketing' (blue), 'Trello Tip' (cyan), and 'Halp' (green). Below the list are buttons for 'Create a new label' and 'Enable color blind friendly mode'. The background shows a card with a description and an activity section.

Meet your new digital office space

Trello is a customizable productivity and collaboration tool that will allow your team to organize multiple projects in a central location, accessible from anywhere.

Your next staff meeting is here

The screenshot shows a Trello board interface with a purple header and a white background. The board is titled "Project Management" and is part of a workspace named "Scenescape Media BC". The board is organized into four columns: "Project Resources", "Questions For Next Meeting", "To Do", and "Pending".

- Project Resources:** Contains a Trello Tip about card labels, a card for "Project 'Teamwork Dream Work' Launch Timeline" (0/6), "Stakeholders", and "Weekly Updates".
- Questions For Next Meeting:** Contains a Trello Tip about asking questions, a card "Who's [Start a capture] to fix my HTML snag?", and "How can I get access to the super secret document?".
- To Do:** Contains a Trello Tip about assigned tasks, "Sketch site banner", "Edit email drafts", "Curate customer list", and "Sketch the 'Teamy Dreamy' Font".
- Pending:** Contains a Trello Tip about in-between tasks, "Legal review", and "Social media assets".

Each card has a progress bar at the top and a "Start a capture" button. The board also features a search bar, a "New stuff!" notification, and an "Invite" button.

You have the power

Integrations

With powerful integrations and customized rules, your team can significantly improve productivity and remove redundancy.

Power-Ups

- Custom Fields**
Settings
Add custom fields like text, numbers, checkboxes, dates, and dropdown lists to cards.
1,000,000+ Staff Pick
- Google Drive**
Add
Access your Drive files for a project directly from its card, or create and attach new Drive files to a card.
1,000,000+
- List Limits**
Add
Set a limit on your lists to highlight them if the number of cards in it passes the limit.
250,000+
- Read Me**
Add
Write a "Read Me" for your board in Markdown!
- Slack**
Add
Connect your communication and collaboration apps so that no ideas or tasks fall through the cracks.
- Voting**
Add
Give power to the people, and allow users to vote on cards.

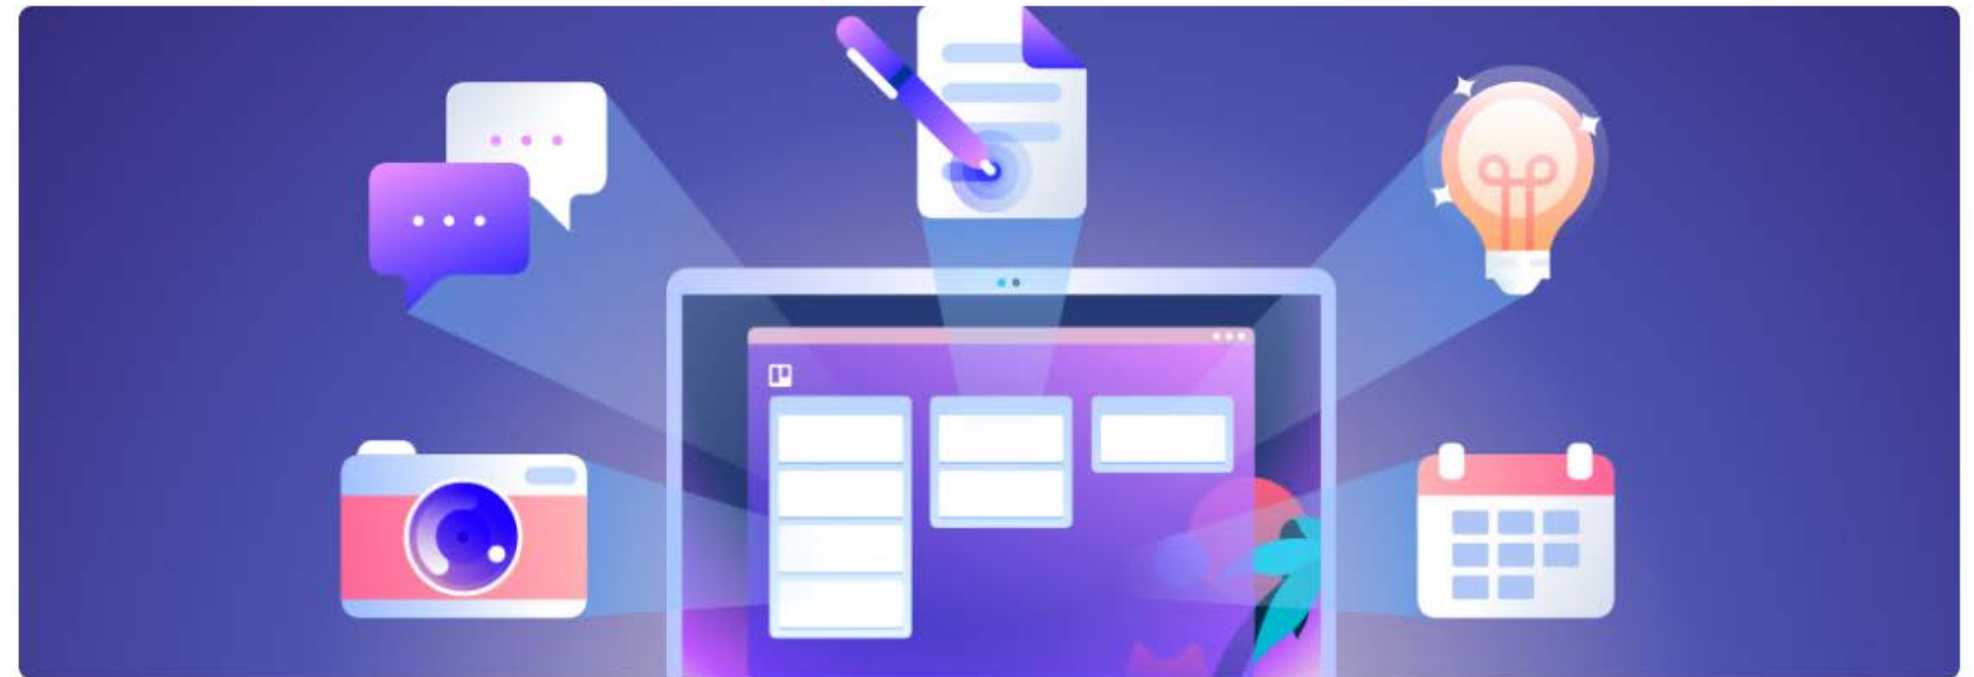

AUTOMATION

Trello allows for repetitive tasks to be automated, increasing productivity and reducing the chance of missed steps.

Rules

Admin

Create Rule

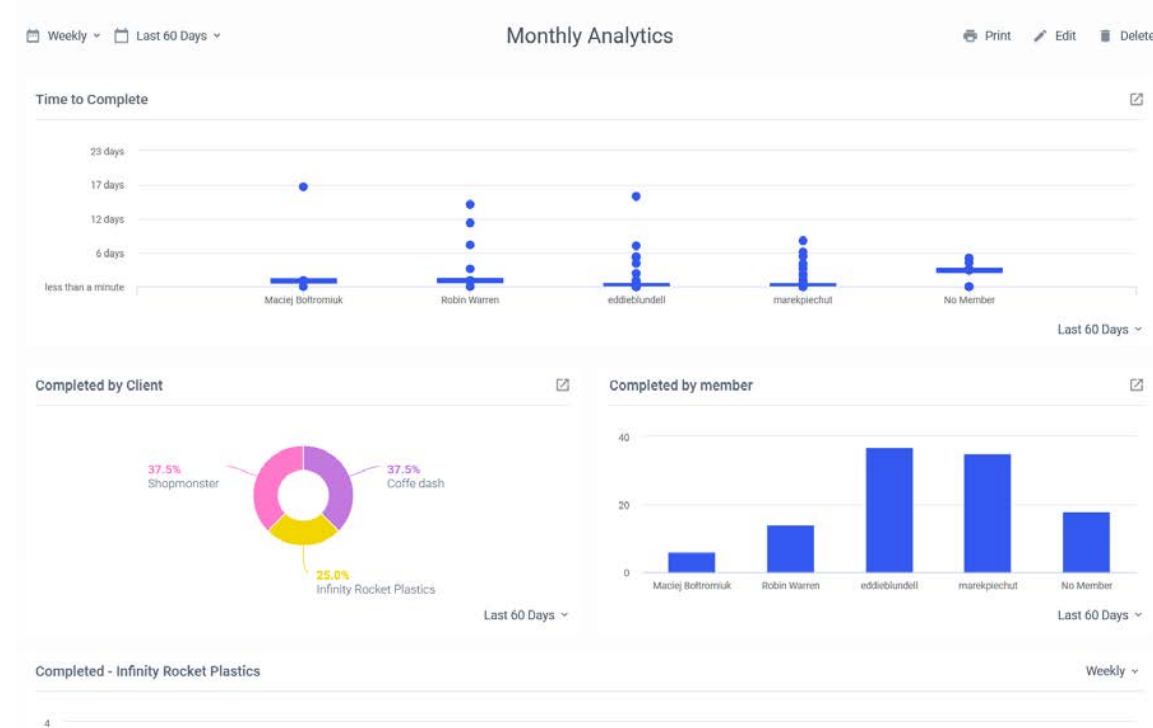

Turn your Trello board into an automation machine.

- ✓ Create rules to have Butler automatically react to your actions on a board.
- ✓ Take productivity to the next level with simple "When this, do that" format.
- ✓ Here are some examples:
 - When a card is created in list "To Do" by me, add the "Steps" checklist.
 - When a card is moved to list "Done" by anyone, mark the due date as complete and remove all members from the card.

Goals

Create team and project objectives for goal tracking, and produce one-click reports for management.

Maintain transparency to reduce mistakes and improve ROI.

Team members can quickly and easily communicate with each other, and with management.

**ORGANIZE
PRIORITIZE
COMMUNICATE
SET GOALS
TRACK RESULTS**

**GET THINGS
DONE.**
